

Lever Mortise

The essential smart mortise for any home.

The Lever Mortise is the essential smart lock for your home. Manufactured in the best factories in Korea, it offers outstanding quality for any home. Packed with convenience and security features, you'll never worry about keys again.

SOFTWARE FEATURES

We're all about convenience.

Set up, operate and manage your igloohome devices with the mobile app. We're putting access in the palm of your hands.

Available on the App Store and Google Play for free!

Powered by our unique algoPIN™ technology.

No need for key handovers, or having guests to download an app to receive time-sensitive PIN codes. It's total freedom from needing a WiFi connection for your lock to work.

Grant access remotely for every visitor and guest. These can be created on the go with our innovative algoPIN™ technology. You can simply share the codes via iMessage, WhatsApp, SMS, and more.

More than just a lock.

Perfect for property management.

We're integrated with some of the biggest players in the vacation rental and property management scene. Automate access for every confirmed booking made.

One lock for all your lifestyle needs.

Integrate with third-party service providers on iglooconnect. We're always growing our network so better serve you. Soon you'll be able to offer secure access to cleaning, dog-walking services and more!

Customised workflows are easy.

You want it? We got it. Our APIs and SDKs are available on igloodeveloper for you to create custom access workflows with the lock.

Compatible ecosystem products

Sold separately.

Bridge EB1

Take your lock online with the Bridge.

Keypad EK1

One PIN code to unlock all your doors.

Key Fob IEF1

Unlock with just one click.

 (US) +1 929 224 0688

-  **Auto Lock**
Automatically locks once the door is shut to give you greater peace of mind.
-  **Security Lockout**
Keypad is disabled after several incorrect access attempts to ensure your property is always secure.
-  **Mechanical Keys**
Keys are available in case of unforeseen circumstances.
-  **Tamper Alarm**
The lock will sound an alarm if it is being pried from the door to alert and deter potential tampering attempts.
-  **Volume Control**
Adjust the volume according to your preference. Select from levels 0 (mute) to 5 (loudest).

-  **Auto Unlock**
Your door automatically unlocks when you return home. Never fumble with keys again.
-  **Emergency Jumpstart**
Easily jumpstart the lock with a 9V battery if batteries are drained.
-  **Decoy PIN Code**
Heighten security and throw off onlookers by entering random digits before your actual PIN code.
-  **Panic Exit System**
The Mortise allows for faster exits by simply pulling down on the door handle during emergencies.
-  **Intrusion Alarm**
The lock will sound off when the door is forced open while the bolt is still extended.

-  **Privacy Mode**
Disable all modes of access except the Master Bluetooth key to prevent unwanted entries into your property.
-  **Low Battery Alert**
Intuitive audio and visual alerts will prompt you to change the batteries when it runs low.
-  **Obstruction Alarm**
The lock will sound an alarm if the bolt tongue cannot be extended or retracted fully to alert the user of any obstructions.
