Push-Pull Mortise

Effortless access for your family.

The igloohome Push-Pull Mortise offers you the most effortless way to enter your home. Instead of turning knobs and handles, simply push or pull to enter or exit. All you need is a single motion. We couldn't have made it any easier.

MODES OF ACCESS

Fingerprints
PIN codes
Bluetooth keys
RFID tags and stickers
Physical backup keys

Just push or pull.

We're always looking for ways to simplify things for you. With the igloohome Push-Pull Mortise, you do just that - push or pull to enter and exit. By removing the additional step of having to turn knobs or handles, we're making it faster for you to get home.

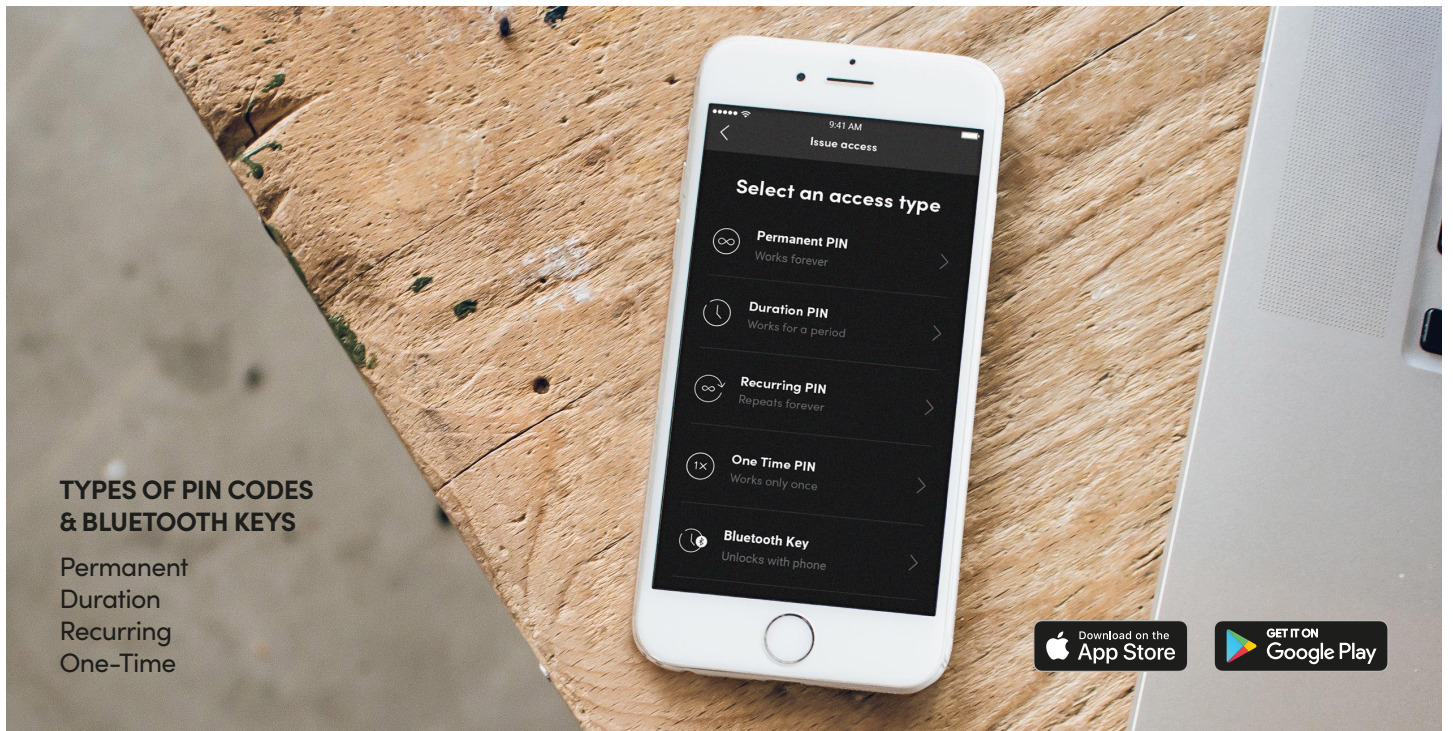

You call the shots.

With more than four ways to unlock, there's a mode of access for everyone. Let your friends and family in with a tap of the RFID tags or stickers, issue duration PIN codes for visits or register their fingerprints for ease of access. The choice is yours.

Never worry about letting people in.

Time-sensitive PIN codes and Bluetooth keys give you greater peace of mind. Customise validity periods for different guests so your home is secure even after they leave.

**Note: PIN code activity logs are updated when the lock is synced in Bluetooth range with the app.*

TYPES OF PIN CODES & BLUETOOTH KEYS

- Permanent
- Duration
- Recurring
- One-Time

Control in your hands.

All igloohome devices work with the igloohome mobile app so you can manage access in the palm of your hands.

There's no need for you to be near the lock to do so. The innovative algoPIN™ technology lets you remotely grant access anytime, anywhere.

Syncs with Airbnb

If you're an Airbnb host, simply synchronise your listing calendar with your igloohome account to automatically create and send PIN codes for each guest.

We offer various accessories to enhance your experience.

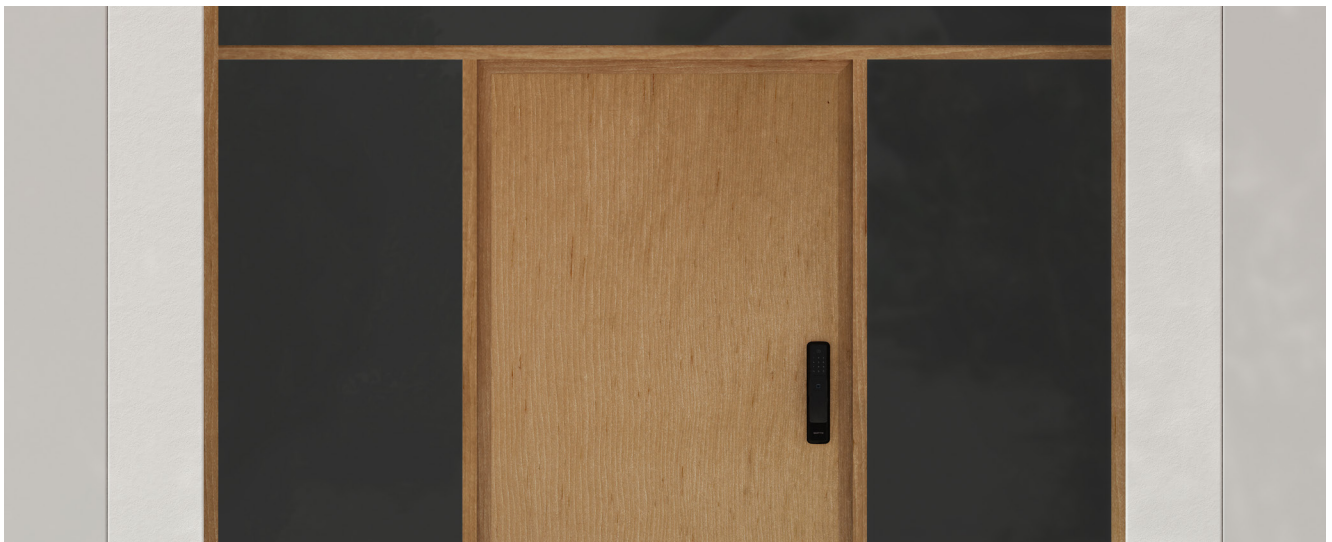

RFID tags and stickers

The lock comes with a set of RFID key tags. More can be purchased if needed.

igloohome Key Fob

The Push-Pull Mortise is compatible with the igloohome Key Fob. It allows you to unlock up to five igloohome locks simultaneously if you use more than one of our smart locks within your premises.

No worries over security.

 **Security lockout**
Keypad is disabled after several incorrect PIN code attempts.

 **Tamper Alarm**
Alarm will sound if intruders try to pry the lock from the door.

 **Masking security code**
Conceal your actual PIN code by entering random digits before it.

 **Intrusion alarm**
The lock will sound off when the door is forced open while the bolt is still extended.

Ease of use for the whole family.

 **Child & pet safety function**
Prevent any accidental unlocks from inside by activating the safety function on the Mortise.

 **Low battery alert**
An intuitive audio and LED visual alert will prompt you to change the batteries when it runs low.

 **Obstruction alarm**
The lock will sound an alarm if the bolt tongue cannot be extended or retracted fully to alert the user of any obstructions.

 **Auto relock**
The Mortise automatically relocks once the door is shut to give you a greater peace of mind.

Customized to your needs.

 **Passage mode**
Turn auto relock off for greater convenience when needed.

 **Volume control**
Adjust the volume to suit your preferences.

 **Quiet unlock**
Mute audio indicators while unlocking for quieter access to prevent disturbance.

 **Key override**
Physical keys are available as back-up in any unforeseen circumstances.

Specifications
